Scott Henderson

Codes Enforcement Officer

DEMOLITION PERMIT INSTRUCTIONS

This application must be completely filled out below the grey box in ink, typed or clearly printed and submitted to the Codes office for review and approval.

The demolition or removal of any structure in the Town of Lenox requires a demolition permit in order to maintain accurate property records and compliance with Industrial Code Rule 56 of the New York State Labor Department.

This application must be accompanied by a hazardous materials survey report completed by a licensed inspector.

No Demolition may begin before the permit is approved and issued by the Codes Department.

Madison County is a flow controlled county- all demolition debris must be taken to the Madison County landfill and disposed of appropriately.

When was the last time you tested your smoke or carbon monoxide detector??
